

Eight Video/Audio Formats CD Player:

CDDVD, miniDVD, DVD-Photo, S-VCD, HQ-VCD, VCD, Audio CD & MP3

The CP-100 is a revolutionary concept for replacing existing presentation demonstration units that were traditionally on VHS tape. The CP-100 is a CD player that supports most Audio/Video formats on CD. It is a stand-alone unit with an internal computer CD-ROM drive. The unit is compact in size and is easy to install. It is specially designed for commercial and educational uses to view high quality video. Specially designed for information displays in store windows and other retail locations. Source CD's do not degrade after playback and allow for continuous playback. The CP-100 provides a Component Y.U.V. output to enable a connection with big screen projection TV's for a high quality video display. The unit allows long term playback without quality loss, auto recycle playback, rewinding is no longer necessary.

Features
